

POSITION DESCRIPTION

POSITION:	Front-end Web Developer (Laravel + Vue.js)
AREA:	Business Systems and Integrations
REPORTS TO:	Manager – Business Systems and Integration
DIRECT REPORTS:	N/A
CLASSIFICATION:	Level 4 (6 Months Fixed Term Contract)

RURAL WORKFORCE AGENCY, VICTORIA LIMITED (RWAV)

RWAV's vision is to achieve health equity for rural, regional and Aboriginal Victorians.

At RWAV we create sustainable health workforce models that support Victoria's rural, regional and Aboriginal communities.

We draw on trusted relationships, smart data and best practice to establish models that are capable, connected and tailored to the communities they serve.

OUR MISSION

To apply contemporary workforce development strategies that advance rural, regional and Aboriginal Victorians' access to high-quality health care.

OUR VALUES

It is integral for all of our employees to share in our values of **Respect, Accountability, Collaboration, Innovation and Courage.**

YOUR ROLE

The Front-end Web Developer will be responsible for developing and maintaining the front-end of web-based applications at RWAV.

The Front-end Web Developer role will work closely with the Business Systems and Integration team as well as other business stakeholders to develop and enhance web-based applications (based on Laravel framework and Vue.js).

KEY RESPONSIBILITIES

- Work on several projects simultaneously;
- Maintain source code on Git, DEV, UAT, and PRD environments;
- Connect front-end web applications with RESTful/GraphQL APIs to create integration between systems;
- Develop and enhance the current and new web applications;

- Support and enhance the WordPress website;
- Fix reported bugs and errors;
- Update assigned cards (issues) on Jira boards;
- Document source code and develop related technical documents;
- Develop and run unit test cases to test the implemented solution;
- Develop solutions based on created mock-ups, graphic designs, and solution artefacts (e.g. class and sequence diagrams);
- Facilitate knowledge transfer across relevant teams including engaging with multiple stakeholders and users from across the organisation;
- Support projects across Applications Development, Infrastructure, Cyber Security uplift and other solutions within a large program of work;
- Active involvement in the Sprint ceremonies, e.g. backlog refinement, sprint planning, stand up, etc

SELECTION CRITERIA

Qualifications/Experience:

Essential

- 3 years of experience as a PHP Developer (especially Front-end developer);
- Experience working with MySQL, PHP, and JavaScript (ES6);
- Experience working with Laravel framework;
- Experience working with RESTful APIs;
- Experience working with JSON, JavaScript, AJAX, HTML5.0, and CSS3.0;
- Experience working with CSS frameworks (Bulma, Bootstrap, etc.);
- Experience working with Vue.js;
- Experience working with GIT version control and gitflows (e.g. BitBucket);
- Good knowledge in WordPress;
- Ability to document source code and develop technical documents in organisational level;
- Experience working with project teams and delivering delegated tasks on time with high quality.
- Experience working with Apache and Linux;

Optional

- Tertiary qualifications in Information Management or related discipline;
- Experience developing OOP applications with PHP highly regarded;
- Experience working with Azure DevOps;
- In-depth knowledge of relational databases such as MySQL and understand SQL commands;
- Knowledge of implementing the MVC architecture with PHP;
- Experience using JIRA and Confluence;

- Knowledge of modelling with UML 2.0 (especially using Activity, Class, and Sequence diagrams) ;
- Knowledge of Project Methodologies including Agile, Waterfall and Hybrid approaches and understanding of the Software Development Life Cycle (SDLC);
- Experience using online tools to collaborate and communicate with project team members and business stakeholders virtually;

Skills, Abilities, Knowledge:

- Demonstratable initiative and ability to work independently;
- Analytical problem-solver, able to anticipate issues and suggest creative ideas or solutions that streamline operations, resolve concerns and improve efficiency;
- Effective time and task management skills that help make sound decisions under pressure situations;
- The ability to successfully manage and influence stakeholder expectations and build excellent rapport with clients and team members to enhance delivery and acceptance of change;
- Strong verbal and written communication skills to communicate with business and project teams and develop related technical documents;
- Open-minded, with a desire to share experience with others, and willing to learn in order to level up skills and develop knowledge;

Personal Qualities/Behaviours:

- Highly developed interpersonal skills with proven ability to build and maintain strong relationships with internal and external stakeholders;
- Highly motivated and self-directed, capable of multi-tasking and able to work with minimal supervision;
- Demonstrates integrity and personal credibility and acts in accordance with RWAV’s values;
