# 1. Before you start your application

**Please read** the guidelines before you commence your application

Check your Letter of Employment includes all the points detailed in Section 8.1.1. OR print the Letter of Employment template, Appendix 1, on your employer letterhead, complete the table and ensure it is signed by your employer or practice manager.

You don't need to submit a receipt as evidence of expenses with your application. An invoice or a screen shot will suffice. We need to know what the activity is, the costs of the activity and the details and location of the activity.

Consider how this activity will help you in advancing your knowledge and skills and the benefits the upskilling activity will bring to your patients and the broader community.

Make sure you submit your application by 11.59 pm on the day BEFORE the activity commences. For self-paced online activities where access starts as soon as you pay (for example, GP exam preparation courses) applications must be submitted by 11.59 pm on the day BEFORE making payment for the activity.

Applications submitted AFTER the activity has commenced will be DECLINED

You must submit your application and requests for further information via the MyRWAV Portal.

Grant funding is designed to support the applicant in undertaking clinical upskilling and is not intended to provide full cost recovery.

Submitting your application does not guarantee you will be successful.

## 2. Grant Overview

The Rural Workforce Agency Victoria (RWAV) is a not-for-profit government-funded organisation focused on improving healthcare for rural, regional and Aboriginal communities in Victoria.

The Health Workforce Scholarship Program (HWP) is part of the Australian Government Department of Health's Health Workforce Program Guidelines.

The HWP is funded by the Australian Government Department of Health and Aged Care and is administered in Victoria by RWAV.

The purpose of the HWP is to improve access to the services needed in rural and remote areas (defined as locations categorised as Modified Monash Model (MMM) 3–7) by supporting an increase in clinical skills, capacity and/or scope of practice of privately employed health professionals in the fields of medicine, nursing and allied health.

HWP funding is directly related to clinical training and upskilling within the field of the applicant's **relevant health qualification** and is assessed on the relevance, value for money and the likelihood to meet identified primary healthcare needs of the community.

## 3. Criteria to qualify for funding

To be eligible for the HWP you will need to meet **all of the following criteria**:

- c. Propose to undertake clinical study or upskilling activities that will meet identified health needs in your community.
- d. Propose to continue to provide a minimum of 8 hours of face to face clinical care per week, in Victoria, after completing your course (as there may be a requirement to complete a return of service agreement of 12 months after the course is completed).
  - in the private or non-government primary health sector in a MMM 3-7 location;

**OR**

  - in an Aboriginal Medical Service or Aboriginal Community Controlled Organisation in a MMM 1-7 location.

- e. Provide evidence that your employer is a private or non-government organisation entity (Enter the business ABN in the <https://abr.business.gov.au/> to determine the entity type.)

The following health professionals are not eligible to apply:

- Health professionals employed solely by any Government entity as identified in the <https://abr.business.gov.au/> (Local, State or Federal)
- Employees who solely provide Government funded services (e.g. NDIS, HACC, TAC, VOCAT, etc.). Note that employees who provide at least 8 hours per week of face to face clinical care, which is NOT provided through government funding, may be eligible.
- Employees of hospices, unless the employee provides at least 8 hours per week of home based care
- Employees with a primary role of leadership, teaching, or supervision are not eligible as this is not considered providing primary healthcare
