

Optimised use of MBS: working with complexity/special needs in rural settings

Growing Your Rural General Practice

This workshop will refresh participants' knowledge of chronic disease management MBS items such as GP Management Plans, Team Care Arrangements and referrals for MBS-rebateable allied health. The workshop includes interactive patient case studies and question/answer sessions.

WORKSHOP DESIGNED FOR HEALTH PROVIDERS WHO WORK IN PRIMARY HEALTHCARE.

Content Covered:

- Use MBS appropriately to assess the health needs of rural populations with special needs, (refugee and Aboriginal health assessments as examples)
- Describe the Medicare compliance program and how audits occur, recall common ways in which practitioners are found to be non-compliant, and recall the consequences of noncompliance
- Practically apply using a number of MBS items for complex clients through case studies
