

OPTIMISED USE OF MBS:

Working with chronic and complex needs in rural settings

This workshop is designed for health providers who work in rural primary healthcare.

Learn with your peers, and share the secret knowledge that is hidden in the Medicare Billing Schedule. Case scenarios will be detailed and include specific learning outcomes.

What will be covered?

- Chronic disease management and care plans
- Case conferences & medications and health assessments
- Discussions about aged care, dermatology, noteworthy item numbers and audits
- Creating clinical and administrative frameworks

Presented by

AOGP is an authorised provider of accredited activities under the RACGP QI & CPD program.
